

Hygiene plan Praxis Logochamp starting July 1st 2020

Parents bring healthy children only.	Any kinds of symptoms in the family require a cancellation – even in short notice.
One parent only accompanies the child.	In case of an initial assessment and appointment, both parents are invited to join the session.
The family arrives on time for the session. They knock at the door and wait until personally welcomed and let in by the therapist.	Please enter the Praxis only when let in personally.
After taking off jacket and shoes the child will wash the hands with water and soap in the bathroom.	Parents disinfect their hands- disinfection liquid is provided at the entrance.
Parents, who bring and pick-up their child only will wait in the marked area at the entrance.	No hand-shaking is allowed.
On the table is a protective screen installed.	After each session, the protective screen will be cleaned.
The therapist will wear a face shield during play in the room if the distance won't be guaranteed.	At the table, no mask are required.

Logochamp

Private Speech Therapy
Sonja Champness

Hand-puppets or soft toys will be reserved for each child if the therapy requires this.	The child is asked and allowed to bring a personal soft toy or hand puppet.
The Praxis will be aired after each session.	All used toys will be disinfected after each therapy session.
All doorknobs, surfaces and mirrors will be disinfected after each session.	The bathroom will be cleaned and disinfected after each session.
The rubbish goes in closed rubbish bins and will be emptied regularly.	The therapist will provide a clean and save environment and hygiene behaviour of herself and all the visitors at all times.
